### FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Continuation of Box II.1

Claims Nos.: 18-23

Rule 39.1(iv) PCT - Diagnostic method practised on the human or animal body

The subject-matter of claims 18-21 does not explicitly refers to diagnostic methods, but can still be interpreted as such for the following reasons:

Since the dependent claim 23 explicitly refers to a diagnostic method, it is considered to be embraced by the scope of its independent claim (18) and thus implicitly comprised in the subject-matter of claim 18. Further, the steps of:

sensing the physical activity of the patient and comparing the sensed physical activity to a pre-set threshold to determine whether the physical activity exceeds the threshold, can also be interpreted as a diagnostic method, because physical activity could refer to for example heart activity.

national application No. PCT/IB2005/050056

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. X Claims Nos.: 18–23 because they relate to subject matter not required to be searched by this Authority, namely:
see FURTHER INFORMATION sheet PCT/ISA/210
Claims Nos.:     because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
Ctalms Nos.:     because they are dependent ctaims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Observations where unity of invention is lacking (Continuation of Item 3 of first sheet)
This international Searching Authority found multiple inventions in this international application, as follows:
As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this international Search Report covers only those claims for which fees were paid, specifically claims Nos.:
No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the Invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest  The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.
